

■ PRODUCT DATA

Reference: PAGODA 3x3

Description: Outdoor folding gazebo

Dimensions: 300x300x300-320 cm

Color: Black

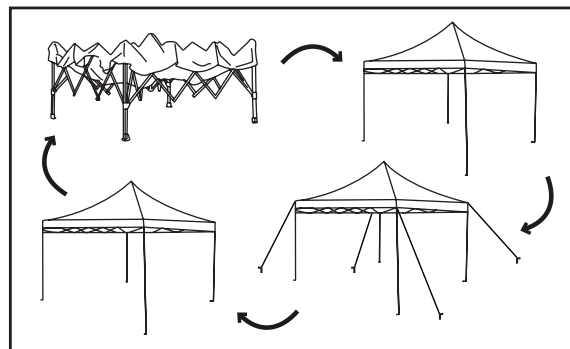

■ TECHNICAL SPECIFICATIONS

MATERIAL	Steel and Oxford 420D Polyester
UV PROTECTION	UV50 +
WATER RESISTANCE	Water-repellent
FIXINGS	Guy ropes and pegs
ACCESSORIES	Carry bag
URECOMENDED USE	Gardens, terraces, patios, and outdoor areas

■ ASSEMBLY AND USE

The assembly of the PAGODA 3x3 gazebo is done by unfolding the folding frame on a stable surface and opening it progressively until fully extended. The polyester canopy is secured to the frame using Velcro straps and hooks to ensure proper fastening.

The height is adjustable in three positions (300, 310 y 320 cm). For outdoor stability, the gazebo must be anchored using the ropes and the eight pegs provided. For disassembly, release the canopy attachment points before folding the frame and storing it in the carry bag.

■ MAINTENANCE

Periodically check the frame and fixing points to ensure they are in good condition. The canopy should be cleaned with water and mild soap, avoiding abrasive products. It is recommended to dry the fabric completely before storage to prevent mold. The gazebo should be stored in its carry bag in a dry, protected place, and should not be left permanently assembled or exposed to adverse weather conditions.
